## **List it to Remember (Project Proposal)**

Group Members:

Valdez, Lawrence John C.

Villaluz, John Ezekiel D.

Timbol, Jude Eimir G.

## **What is the project all about:**

- A to-do list program is a software application that allows users to create and manage lists of tasks they need to complete. The program should be easy to use and provide a variety of features to help users manage their tasks efficiently. This Program will be accessible to people who want to help themselves finish a task without pressuring themselves to do it.

## **Plan**

- Our plan is to create a to-do list to help different kinds of people to remember their plans or things to do for the day or the following day. It helps us to easily remember the schedules of the following activities that we need to do.

## **Benefits**

- It will lessen the stress because it will let you to remind the tasks, It is for free to use and it will help you to manage things easier.

## **Goal**

- Our goal is to help people to lessen the struggles and stress about their plans to do especially to the young adult and adult. Everyone can use our project for a big help.

## **Vision**

- In the near future, there will be a lot of people who are using our do's and don't's project and we're continuing by helping them to manage things a lot more easier.

## **Mission**

- Our mission is to let this project be beneficial to all of the ages to help them because we're also a student who have a lot of tasks who are always making or finding ways to make our tasks and plans more easier to reach out.
